Nursing: Calling the Shots in Healthcare Delivery (Option 1)

main course instructors: Sarah Kruger and Erik Woodhouse

11 credits

**Nursing 105**

**Health Care Systems: An Interdisciplinary Approach**

**Anthropology 104**

**Cultural Anthropology and Human Diversity**

**Educational Psychology 320**

**Human Development in Infancy and Childhood**

**Biology 101**

**Animal Biology**

♥️ for students advised by the School of Nursing

"Health Care Systems: An Interdisciplinary Approach" will focus on factors affecting health and the value placed on health, the delivery of health care in different settings, and the roles of various professionals in the healthcare system.

**LINKED COURSE**

**Anthropology 104: "Cultural Anthropology and Human Diversity"** — Provides a comparative cross-cultural consideration of social organization, economics, politics, language, religion, ecology, gender, and cultural change. These topics will help provide context for our analysis of the American criminal justice system and our literatures about it.

**LINKED COURSE**

**Educational Psychology 320: "Human Development in Infancy and Childhood"** — This course examines normative processes and individual differences in physical, mental, social and emotional development and behavior from infancy through late childhood.

**LINKED COURSE**

**Biology 101: "Animal Biology"** — General biological principles evolution, ecology, animal behavior, cell structure and function, genetics, molecular genetics, and the physiology of a variety of organ systems emphasizing function in humans.

This FIG is designed for students considering an application to the Nursing Program in the School of Nursing. Acceptance into the School of Nursing is dependent on a number of factors including completion of specific courses and meeting minimum grade-point average requirements. If you are interested in this academic path, please meet with an advisor from the School of Nursing to get full information. ●

6:00 pm

Enrolled in a FIG and you change your mind?

FIG courses are designed to be taken together. When you enroll in a FIG, you are signed up for these courses as a whole group, not as separate courses.

If you change your mind, dropping one FIG course means ending your enrollment in all of the courses in the FIG.

So, here’s what you should know if you want to drop the FIG:

• You can drop all the courses on your own through your Student Center at my.wisc.edu. Any non-FIG course will not be affected.

• After classes begin (Tuesday, September 6, 2016), if you need to drop a single course within the FIG, please contact Kari Fernholz (see below) to review your situation. If necessary, she will provide the required authorization to drop the course.

• Wednesday, September 14, 2016 is the last day to drop courses without it appearing on your college transcript.

• Friday, September 16, 2016 is the last day to add a course without first getting departmental approval.

MAIN COURSE

Nursing 105
Health Care Systems: An Interdisciplinary Approach
satisfies these requirements:
Social Science (S)
Elementary (E)
2 credits for this course
SOAR registration: 49399

LINKED COURSE

Anthropology 104
Cultural Anthropology and Human Diversity
satisfies these requirements:
Ethnic Studies (e)
Social Science (S)
Elementary (E)
3 credits for this course
SOAR registration: 52609

LINKED COURSE

Educational Psychology 320
Human Development in Infancy and Childhood
satisfies these requirements:
Social Science (S)
Intermediate (I)
3 credits for this course
SOAR registration: 32808

LINKED COURSE

Biology 101
Animal Biology
satisfies these requirements:
Biological Science (B)
Elementary (E)
3 credits for this course
SOAR registration: 40472
