values such as objectivity inform our public debates. But we tend to think of this as a one way relationship, with science and technology influencing society, but not the other way around. Through Science & Technology Studies 201: “Science as Culture,” you will learn to approach science and technology as an anthropologist might: by studying the values and practices of users, designers and scientists, and the values embedded in technologies themselves.

Computer Sciences 200: “Programming I” — This course is intended for students who have no prior programming experience. Students taking this course will be taught the process of incrementally developing small (200 to 500 lines) programs along with the fundamental computer science topics. These topics include: problem abstraction and decomposition, the edit-compile-run cycle, using variables of primitive and more complex data types, conditional and loop-based flow control, basic testing and debugging techniques, how to define and call functions (methods), and IO processing techniques. This course also teaches and reinforces good programming practices including the use of a consistent style, and meaningful documentation.

Anthropology 104: “Cultural Anthropology and Human Diversity” — A comparative cross-cultural consideration of social organization, economics, politics, language, religion, ecology, gender, and cultural change.
May 30, 2017 10:10 PM

Enrolled in a FIG and you change your mind?

FIG courses are designed to be taken together. When you enroll in a FIG, you are signed up for these courses as a whole group, not as separate courses. If you change your mind, dropping one FIG course means ending your enrollment in all of the courses in the FIG.

So, here's what you should know if you want to drop the FIG:

- You can drop all the courses on your own through your Student Center at my.wisc.edu. Any non-FIG course will not be affected.
- After classes begin (Wednesday, September 6, 2017), if you need to drop a single course within the FIG, please contact Kari Fernholz (see below) to review your situation. If necessary, she will provide the required authorization to drop the course.
- **Wednesday, September 13, 2017** is the last day to drop courses without it appearing on your college transcript.
- **Friday, September 15, 2017** is the last day to add a course without first getting departmental approval.

### MAIN COURSE

Science & Technology Studies 201
Science as Culture
Lecture 3, 1:20–2:10 MW
Discussion 301, 1:20–2:10 F
satisfies these requirements:
Humanities or Social Science (Z)
Intermediate (I)

3 credits for this course
class number: 64079

### LINKED COURSE

Computer Science 200
Programming I
Lecture 2, 1:00–2:15 TR
Lab 321, 2:30–3:45 T
satisfies these requirements:
Quant B (r)
Natural Science (N)
Elementary (E)

3 credits for this course
class number: 65789

### LINKED COURSE

Anthropology 104
Cultural Anthropology and Human Diversity
Lecture 1, 9:55–10:45 TR
Discussion 306, 3:30–4:20 M
satisfies these requirements:
Ethnic Studies (e)
Social Science (S)
Elementary (E)

3 credits for this course
class number: 45651
