Exploring Biology (Option 1)

This unique class is taught by a team of dynamic instructors with diverse backgrounds in the biological sciences to introduce you to a wide range of topics. Peer leaders—upperclassmen at UW–Madison—will also share the student perspective of navigating classes, co-curricular opportunities and the Wisconsin Experience. You will get connected to bioscience events, opportunities, and people at UW–Madison.

This class brings five Exploring Biology FIGs together into one combined class. You will be grouped with other students in your FIG and paired with an instructor and peer leader that you will work closely with throughout the semester as you engage in interactive and collaborative activities. (Note that this is not an introduction to biology class.)

Quotes from Integrated Science 100 students:
• “I learned about different aspects of biology, but also things about my campus and the resources that are available.”
• “This class allows you to explore major biological themes and the different paths you could take if you continue to study biology or any other science.”
• “The relationships that I built in the class are ones that I expect to keep in the future.”
• “I learned skills which will be useful in other college classes.”

English 100: “Introduction to College Composition” — This class treats writing as both an act of inquiry and communication, and it offers opportunities to identify, develop, and express concepts; engage in conversations with the ideas of others; and critique and construct arguments through original research.

Gender & Women’s Studies 200: “Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer+ Studies” — A multidisciplinary introduction to lesbian, gay, bisexual, transgender, and queer (LGBTQ) studies, including theories of identity formation, different societal interaction with LGBTQ communities, LGBTQ cultures in history, and contemporary legal and political issues. Class materials explore the intersections between LGBTQ identities and other socially marginalized identities, including (but not limited to) those based on race, ethnicity, religion, and disability.

main class instructor: Cara Theisen

9 credits

Thinking about majoring in a bioscience field? Explore exciting bioscience topics and opportunities at UW–Madison in this FIG.

In Integrated Science 100: “Exploring Biology” you will:
• learn skills and ways of thinking that will prepare you for success in future biology classes;
• gain new perspectives on broad topics and current research in biology;
• explore opportunities and careers that can come with a bioscience major;
• pick up great tips and advice on how to get the most out of being a bioscience major; and
• meet new friends and mentors who share your interest in biology.
Enrolled in a FIG and you change your mind?

FIG classes are designed to be taken together. When you enroll in a FIG, you are signed up for these classes as a whole group, not as separate classes.

Dropping one FIG class means ending your enrollment in all of the classes in the FIG.

So, here’s what you should know if you want to drop the FIG:

- You can drop all the classes on your own at enroll.wisc.edu. Any non-FIG class will not be affected.
- After classes begin, if you need to drop a single class within the FIG, please contact Kari Fernholz (see below) to review your situation. If necessary, she will provide the required authorization to drop the class.
- **Wednesday, September 11, 2019** is the last day to drop a class without it appearing on your college transcript.
- **Friday, September 13, 2019** is the last day to add a class without first getting department permission.

### MAIN CLASS

**Integrated Science 100 Exploring Biology**

LEC 1 + DIS 301: M 2:25–4:20

- Biological Science
- Elementary
- credits: 2
- class number: 50747

### LINKED CLASS

**English 100 Introduction to College Composition**

LEC 20: MWF 11:00–11:50

- Communication Part A
- Elementary
- credits: 3
- class number: 55245

### LINKED CLASS

**Gender and Women’s Studies 200 Introduction to Lesbian, Gay, Bisexual, Transgender and Queer+ Studies**

- Ethnic Studies
- Humanities or Social Science
- Elementary
- credits: 4
- class number: 58813
